## Video status app download 2018

Even if you can save Facebook posts to watch later, sometimes you want to download a video you found on your feed. If it's a how-to video that you want to save for when you're working on a project, or a funny video that you want to share with friends, you can download Facebook videos from your feed to your device with just a few simple steps. How to download a video from Facebook using a computer This trick only works on Facebook.com and won't work on the app, so you'll need to go to Facebook on your browser, first. Then find the video you want to download and right-click the video. Next, click the option of Show video URL. A small box with the video URL will pop up. Copy the link and then paste it to a new table or window address bar. Then change you the to the address of mbasic. So, for example, if the video URL is you'll change it to . Once you're done, tap Enter on your keyboard. What this is to change the address of a cornea address of mobile, which will then let you download the video. If you've done it right, the screen will look a little funny, like you're trying to look at the Facebook app on your browser. Next, right click the video and select Open link in new tab from the menu. In the new tab, the video will not contain any of the Facebook ads such as comments and such a button. It will just be the video. From there, right click on the video and select Save video as... from the menu. Then save it to your computer as you normally would any other videos or pictures. Now you can play the video with whatever video player you have installed on your computer. How to download a Facebook video in the app If you don't have a computer, downloading from the app using your phone will require some help. First, you'll need to download a third-party app to your phone that provides the extra Facebook app features. For this demonstration, we use the friendly for Facebook app. Once the app is downloaded, it will ask you to log in to your Facebook account. Log in as you normally would. Then the app will open up Facebook and it will look exactly like you are using the Facebook app. Next, find the video you want to download. At the bottom of the video post you'll see a little foreign icon next to the sharing button. Tap the foreign icon. From the menu that pops up, tap on the Downloading Video... option. That's it. The video will download and save to your phone. Editors' recommendation saving Instagram videos is not as complicated as it might seem, if you have the right tools at hand. Instagram is much about living up to this moment and sharing it with friends and family. With a few pipes, you can take a photo or video and share it with your followers. You can also browse through the photos and videos shared with others – but what about whether you fancy the idea of a video to see when you're offline, offline, just want to see it outside of Instagram? Instagram makes it easy to find and bookmark videos you might be interested in, but it offers no built-in options to download the following videos you would like to save for posterity. If you want to download Instagram videos, you'll have to look at third-party tools to help you out (just as if you want to upload Instagram photos from a PC). And that's what we're looking at here. If you are using it on your computer or on your mobile or tablet, there are various options you can use to download Instagram videos. Here are some of the best (and if you want to give your food a new look, we can show you how to enable Instagram mode black). Save Instagram videos to your PC There websites so much that let you download Instagram videos, and they all work in pretty much the same way. One of the easiest, sleekest and most reliable, however is DreDown.To to use the site, you'll first need to visit Instagram and load up the video you are interested in. Copy the URL from the address bar of your web browser, switch to the DreDown page, click the Instagram link at the top, and then paste the URL into the text boot on the DreDown page. Hit the DreDown button, wait while the video is analyzed and then download it. Other internet-based services that work in a similar way include DownloadGram and Download Instagram Video. Save Instagram videos on an iPhone The security restriction in place with iOS means that downloading Instagram videos is not quite as straight as on the desktop, but it's still not too hard – all you need is the right app. One option is Blaze: Navigator & File Manager. Just copy the URL to an Instagram post from the Instagram app a then paste it to Blaze. Next, you need to type the download button, and then select the option 'Export Video Camera Roll'. Of course, you can also use any of the web-based options mentioned above if you prefer. Save Instagram video on Android Android users, there are several options when it comes to downloading Instagram videos, including using one of the web-based services mentioned on. There are, however, also apps that you can use to make things a little easier. One such option is Video Downloader for Instagram, a free app that makes much what its name suggests. As the app is free, you'll have to set up with ads, but this is a minor distraction. Video Downloader for Instagram does an excellent job of explaining how to use it, but it's worth resuming however. In the Instagram app, type the three dot buttons in the upper right of a post you want to save the video from and select 'Copy link'. Switch to Video Downloader for Instagram and select the 'Paste' option. This all has it ymgerman/Shutterstock Bored with your apps and looking for something new? We've searched through Google Play, iTunes, and others app stores to get the best, saving you time. Here are the apps we think you need to check out this week. The popular sequence with side-adventure game is finally here, albeit only on iOS. Badland 2 plus or less feels less similar to its predecessor, taking players and floating off the map, avoiding obstacles and survival until you reach the end. What's different in the second iteration, though, is that instead of only going one right, you can now move in both directions. It still features only a single-player campaign, but there are global challenges, so you can fill out friends' accounts of leaderboards. It's a small price, cost you \$5. iTunes the popular story app has finally come to Android. Store allows you to upload photos, videos, and text to make a personalized story about anything. The own part is that you can embed your story on blogs or share it with your friends and family. You can also browse to other user stories. The features are pretty much identical to what you'll find on the iOS version, so there's no disparity. Google Play iTunes Bumble is a dating app brought to you by Whitney Wolfe, one of the co-founders of Tinder, and its main focus is on making women the entertainer. It works very similar to Tinder in that it only connects people who have changed right on each other's profiles. What's different is that the woman must start the conversation within 24 hours before the connection goes, and for same-sex connections, either person can start the conversation. Google Play iTunes needs a movie recommendation? Your friends know you better, so why not ask them? That's what Tronko is all about. It's a message app built around friends you recommend and discuss movies with each other. You can start

mesaging group threads or have a conversation with one person. The app has long tougher its data using the TMDb API, and it allows you to rate movies on a scale of 1 to 10. iTunes Google play selfie takes they won't have to rely on the front-facing camera anymore. Everyone knows the rear camera offers a higher quality photo, and Elie is an app that lets you point the camera behind - and take selfies without you having to do anything. It recognizes your face and takes multiple pictures, but only stores the one you choose. It offers a variety of other features as well, such as adding effects while taking a picture, not after. The app will cost you \$3. iTunes Recommendations Editors' Recommendations
